Kind attention Participation of 45th India Carpet Expo, Bhadohi

After a very successful last edition of the India Carpet Expo at Bhadohi, CEPC and CEPCCs Committee of Administration Members are working hard for the upcoming 45th India Carpet Expo- Asia's Largest Handmade Carpet Fair scheduled from 8-11 Oct 2023.

In the last edition, the fair was held on the Ground Floor and Second Floor. We have been requesting the relevant departments for the installation of escalators at the mart and in anticipation of the installation of escalators well in time before the fair bookings were opened for First Floor Shops as well. However, now considerable time has passed and no confirmation has been received on the installation of the same

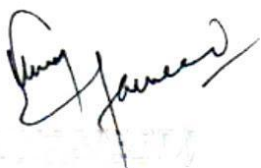

In view of the First Floor Shops not being connected to the Ground Floor and Second Floor through an escalator, it has been decided to shift all bookings of 1st Floor Shops to the 2nd Floor Shops area. The shifting of exhibitors from the First to the Second Floor will help make the fair more compact and will ensure ease of Buyers' movement during the fair.

The fair will now be limited only to the Ground Floor and Second Floor.

Since the participation charges for second-floor shops are less than for first-floor Shops, the difference in the amount will be adjusted in your final balance payment.

This is for your information.

We look forward to having a very successful show ahead.
